Definitions:

Supported – All functionality of the product has been tested and successfully meets all functional and visual design requirements for screen sizes of 1024x768 and larger.

Allowed – All major functionality of the product has been tested and successfully meets functional requirements for screen sizes of 1024x768 and larger. Some design and/or functional deficiencies may occur.

Unsupported – Browser/OS combinations that do not fall in either the Supported or Allowed list will default to 'Unsupported.' The functionality may not work and will not be supported (via bug fixes.)

Please note, the supported browser list does also include Internet Explorer 11 for Windows 10.
